Instagram

We are pleased to announce that we are launching our new Instagram page. It will be used as a way of sharing all the great things going on in school to the wider community including family members and prospective parents.

All information our parents need will continue to be shared on Dojo and School Spider as it is now.

We will only share photographs of children whose parents have given permission for Instagram and will not share children's names. Children will still participate in the activities shared whether they have photo permission or not.
