

What is Art and Design?

Art and Design is ...

Art and Design fires your imagination and is a fundamental means of personal expression. Art is about exploring ideas by experimenting, inventing and creating your own varied works of art using a range of materials and by taking inspiration from great artists, craft makers and designers.

Someone who studies art is called an artist.

There are many types of artists including painters, sculptors and textile artists. In KS2 we will be learning about a range of artists including Ted Harrison, Lisa Walton, William Morris, Kimmy Cantrell, Lenora Carrington, Roy Lichtenstein and Alexander Calder.

I will be learning these skills in art:

- Create a sketch book to record my observations and use it to review and revisit my ideas.
- Talk about great artists, designers and architects in history.
- Evaluate and analyse creative works using the language of art, craft and design.
- Become proficient in drawing, painting, sculpture and other art, craft and design techniques.
